

.
]Hallo Jungstilingleutenz!

Euer Jungstiling war doch Arzt.
Warum sagt er aus dem Jenseits so viel Frommes statt Anweisungen gegen die Ansteckung durch das Corona-Virus zu geben?

.
Kommentar: Dear brakeman of snails: Jung-Stilling was an [i]ophthalmologist,[/i] (= physician specialising in the eye) not a [i]virologist[/i] (= a specialist in virology resp. microbiology). ~~ But without doubt it will be of huge benefit for your life in this world and in the life to come if you internalise the after-death lessons about religion and faith.
